

The benchmark in non-metallic piping for corrosive applications

Advantages of dual laminate piping over lined steel

Keys to our superior, corrosion resistant, Exabond® Dual Laminate system

- **Cost Saving**
Upfront investment cost lower than lined steel
Installation cost; less flanges, less bolts, less gaskets, less manpower
Maintenance cost; external corrosion
- **External corrosion**
No more paint specs
No more repaint
- **Bonded system**
Prevents liner buckling
Prevents flange stress cracking
Prevents permeation
- **Mechanically sound system**
Support spans equivalent in most cases
Full vacuum / 150 PSI design
Tested to 600 PSI
Vinylester, corrosion resistant structure
Light weight
